

September 3, 1970.

Dear Sirs:

Re: Final Rejection
Application No. 970,522
Filed Sept. 16, 1966
David Lunine
MULILAYER LAMINATED CIRCUIT BOARD
AND METHOD OF MANUFACTURE THEREOF

In response to applicant's request of May 11, 1970 for a review of the examiner's Final Action of February 16, 1970, the prosecution has been carefully studied and a hearing before the Patent Appeal Board was granted at which Mr. Angus Davidson presented argument for the applicant.

It has been determined that the refusal which was based on Section 43 of the Patent Act was not proper.

The application is being referred back to the examiner for resumption of normal prosecution.

Yours truly,

A.M. Laidlaw,
Commissioner of Patents.

Messrs. A.E. MacRae & Co.,
Box 806, Station B,
Ottawa, Ontario.
